

AMAN KUMAR PANDA

Cybersecurity Practitioner | MCA Candidate | VAPT

Vadodara, Gujarat | +91-9937552371 | amanpanda987@gmail.com

<https://www.linkedin.com/in/amankumparpanda4/> | <https://github.com/AmanPanda24> | <https://amanpanda24.github.io/portfolio/>

PROFESSIONAL SUMMARY

Cybersecurity practitioner experienced in vulnerability assessment, penetration testing, and threat analysis across web, network, and system environments. Builds AI-powered security tools for real-time threat detection, OSINT automation, and misconfiguration scanning. Currently pursuing an MCA in Cybersecurity & Forensic Science, seeking to contribute to a security team focused on proactive defense and risk mitigation.

TECHNICAL SKILLS

Languages	Python, Bash
Penetration Testing	Burp Suite, Metasploit, Nmap, OWASP ZAP, SQLmap, Gobuster
Vulnerability Assessment	Nessus, OpenVAS, CVSS, CVE, Risk Prioritization
Web App Security	OWASP Top 10, SQLi, XSS, CSRF, SSRF, XXE, Auth Bypass
Network Security	Wireshark, TCP/IP, DNS, HTTP/HTTPS, Packet Analysis, VLANs, VPN
OSINT & Recon	Maltego, theharvester, Recon-ng, Shodan, WHOIS, Subdomain Enumeration
OS & Platforms	Kali Linux, Parrot OS, Ubuntu/Debian, Windows Server
Frameworks	MITRE ATT&CK, OWASP Testing Guide, NIST CSF, ISO 27001, CVSS, SDLC

PROFESSIONAL EXPERIENCE

Cybersecurity Intern & Professional Trainee | *Hacker School (Cartel Software), Bangalore* Jul 2024 – Dec 2024

- Completed 200+ hours of intensive training in ethical hacking, VAPT, threat analysis, and incident response across web, network, and system domains.
- Performed penetration testing and identified SQLi, XSS, CSRF, SSRF, and auth bypass vulnerabilities using Burp Suite Pro and OWASP ZAP, scored with CVSS v3.
- Simulated real-world attacks across 7 threat categories via Metasploit; conducted network recon with Nmap/Nessus; performed traffic analysis via Wireshark for IoC detection.

Operations & HR Intern | *IKKASA, Remote* Jun 2024 – Sep 2024

- Managed recruitment and onboarding for 15+ new hires; built HR documentation templates that cut administrative overhead by 30%.

PROJECTS

Aegis-AI - Intelligent Network Behavior Analysis & Detection System <https://github.com/AmanPanda24/Aegis-AI>

Python · scapy · Zeek/Suricata · Isolation Forest · XGBoost · LSTM · FastAPI · Kafka · WebSocket · Grafana

- Achieved 85%+ detection accuracy on CIC-IDS2017 across 7 attack classes using a hybrid ML engine Isolation Forest for zero-day detection, XGBoost, and LSTM for low-and-slow APT detection.
- Architected a 4-layer AI pipeline [Packet Capture → DPI → ML Inference → Dashboard] across a 3-VM isolated lab, extracting 13 traffic features; delivered sub-second real-time threat scoring (0–100) across 4 risk tiers.

PhantomEye - AI-Powered OSINT Intelligence Framework <https://github.com/AmanPanda24/phantomeye>

Python · AsyncIO · REST APIs · DNS · Web Scraping · OpenAI LLM

- Cut manual OSINT triage time significantly by integrating OpenAI LLM for automated pattern recognition and natural-language executive summaries.
- Built a modular async OSINT framework with plugin architecture for domain recon, social media enumeration, and threat correlation including rate limiting, retry logic, proxy support, and JSON/CSV/HTML export.

SecProbe - AI-Assisted Web Security Misconfiguration Scanner <https://github.com/AmanPanda24/SecProbe>

Python · Flask · REST API · Google Gemini · Groq LLaMA

- Built an automated scanner detecting missing HTTP security headers, SSL misconfigurations, and exposed ports with CVSS-style risk scoring; Flask REST API with JSON/HTML report export.
- Integrated Google Gemini and Groq LLaMA for AI-driven remediation guidance vulnerability explanations, impact assessments, and instant fix recommendations.

EDUCATION

Master of Computer Application (MCA) - Cybersecurity & Forensic Science Aug 2025 – Jul 2027 (Expected)

Parul University, Vadodara

Bachelor of Computer Application (BCA) Aug 2022 – Jul 2025

Sambalpur University, Odisha

CERTIFICATIONS & TRAINING

- Certified Ethical Hacker (CEH) v12 — EC-Council
- Certified Cybersecurity Professional — ICTRD
- Cybersecurity Professional Training — Hacker School (2024)
